Objective

To obtain a position where my knowledge and technical skills would be well utilized and an opportunity for value based growth and career advancement while contributing handsomely to the organization to attain its goals.

Education

B.Tech - National Institute of Technology, Patna (2010 – 2014), Information Technology, CGPA: 7.06.

Senior Secondary – Gandhi Inter College Sikandarpur Ballia UP, percentage -58.2%

Percentage of SSC- 70.2 %

Projects-

❖ **Alpharooms**
(https://alpharooms.com/)

Developed platform where customers book online hotels and flights. Alpharooms available for B2C, B2B and affiliate clients. Alpharooms have more than 4000 hotels and more than 30 suppliers. This application has three different channels for customers. This application has some affiliates clients like Trivago.

❖ **Betabeds And Phoenix**
(https://www.betabeds.com)

Betabeds is a B2B module of Alpharooms. This application provides a platform for Alpha agents. Alpha agents use this application to book hotels for their customers.
Phoenix is an admin panel for agents. Alpha agents can do admin actions like edit, cancel bookings etc.

❖ **Easyjet integration** (Use internal)
. (Cross **browser communication**)

Developed a Mozilla add-on for swordfish. Easyjet (flight) integration in swordfish (hotel) by add-on. Send data to easyjet, take flight data and return back to swordfish with flight data. Swordfish book packages (hotel + flight) by it's own application.

.
